

45 DAY SUMMER TRAINING AND INTERNSHIP

AI, ML, IOT, DATA SCIENCE

REGISTER

Attend On-Campus Or Online

ABOUT

Career Accelerator is IIT Kanpur's flagship training and internship program in **AI, IoT, Machine Learning and Data Science**.

This program teaches you how to build a competent **job-ready** profile to start a career in these fields in 45 days. It doesn't matter if you don't have a background in Programming or Computer Science. Everything you need to know taught in this program step-by-step starting from scratch.

Program Design

The Career Accelerator Program is conducted in two phases(30 days + 15 days) for ideal learning experience.

- **PHASE 1:** Online training module of **30 days** with full mentor support of IIT faculty and Mentors. This is a very flexible module wherein you may complete the 30 day module at any time during a span of 3 months based on your convenience. This has been done to accommodate students and professionals with different schedules and obligations.
- **PHASE 2:** 15 day intensive bootcamp that can be done online or In-Person at IIT Kanpur campus.

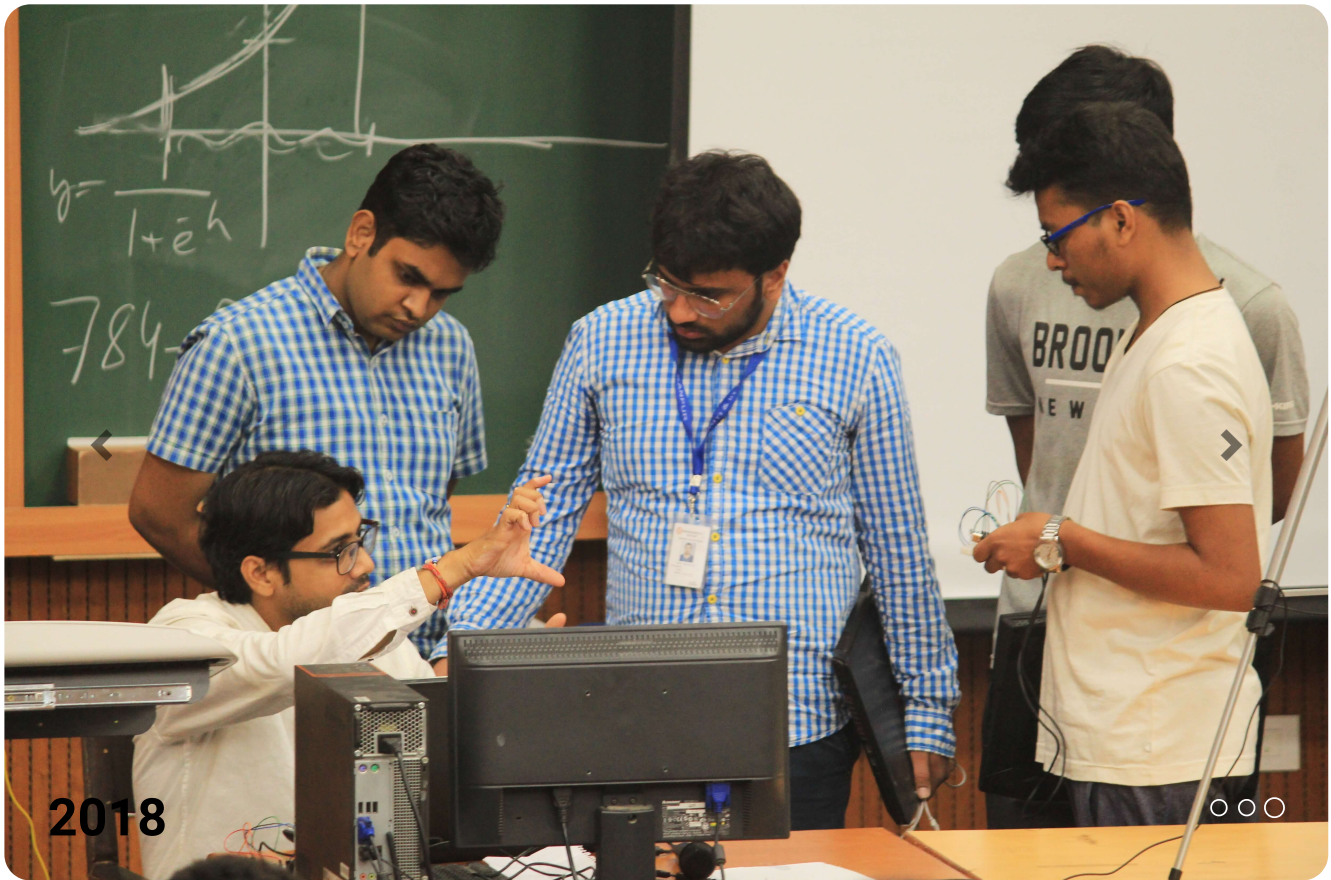

NOTE: For Online participants, the same training and internship program will be offered entirely online. During Phase 2 all sessions will be broadcast live on our training platform and will be available for later use as well.

Previous Events

This is the third iteration of this Program by IIT Kanpur. It has been refined and perfected over the last 2 years.

- In 2018, **60+** students were part of the first cohort of this program.
- In 2019, **400+** students from over 18 states attended did their internship. They successfully completed over **80 projects**.

BENEFITS

Certified from Premier Institute

45 Days Internship Certificate from **IIT Kanpur**.

Trending in Job Market

These are skills with high demand and scarce supply in the market right now. And this demand is expected to grow exponentially in the coming decade.

Qualified Team

Expert instructors from IITs and Industries.

Activity Based Learning

Case study and Project-driven learning methodology.

Extensive hands-on experience both in software and hardware.

.

No Pre-Requisites

Starts from scratch - Teaches python programming and all required higher level libraries (numpy, tensorflow etc)

Expert Career Guidance

This is not just a course that will teach you concepts. Every step of this program is optimized to help you kickstart your career in these fields by landing Jobs and Internships

Instructors

(<https://home.iitk.ac.in/~lbehera/>)

Dr Laxmidhar Behera

Poonam and Prabhu Goel Chair Professor, IIT Kanpur

^

(<https://home.iitk.ac.in/~vipular/>)

Dr. Vipul Arora

Asst Professor@IIT Kanpur

Past: Research Scientist @ Amazon Alexa
PostDoc @ Oxford University

(<http://www.iitkgp.ac.in/departments/CS/faculty/cs-pawang>)

Dr. Pawan Goyal

Asst Professor@IIT Kharagpur

^

Dr. Amit Shukla

Asst Professor@IIT Mandi

Dr. Himanshu Singh

PhD, NUS Singapore; B.Tech-M.Tech, IIT Kanpur

Mr. Sandeep Gupta

Phd, EE, IIT Kanpur

Mr. Keshav Verma

B.Tech, IIT Kanpur

Mr. Kaviti Sai Saurab

B.Tech, IIT Kanpur

Program Content

Introduction to AI and IoT

- ✓ Introduction to Internet Of Things
- ✓ C/C++ Programming for IoT Applications
- ✓ Python Foundations
- ✓ Data Wrangling
- ✓ Statistics for Data Science
- ✓ Foundations of Machine Learning
- ✓ Introduction to Deep Learning
- ✓ IoT Development Platforms
- ✓ IoT communication protocols
- ✓ IoT server and client configurations
- ✓ Basic App development

^ Setting up and using cloud services

- Introduction to cloud services
- How to use cloud services for IoT applications

- ✓ Smart Phone controlled Mobile Robot

Applied Machine Learning and Data Science

< Python Foundations

Python has become the default language in which majority of Machine Learning and Data Science is done today. In this unit, you'll learn how to program in Python, best coding practices, and essential python libraries.

- Python Basics from Scratch
- Essential Python Libraries
- Best Coding Practices

✓ Data Wrangling

✓ Storytelling with Data

✓ Statistics for Data Science

✓ Foundations of Machine Learning

✓ Deep Learning In-Depth

✓ Computer Vision Toolbox

✓ Natural Language Processing Toolbox

✓ Miscellaneous Applications Toolbox

✓ Deploying AI Systems to Production

*Note: Program contents are tentative and are subject to change when necessary

Career Services

We have put a lot of effort to make this training program to be fully industry-relevant. But apart from training we also provide students with all the tools that they need to apply and get jobs or internships in the industry. This is a very crucial piece to actually start building one's career.

This training also includes tools that help to -

- Create a successful job search strategy
- Create a powerful github profile of projects
- Build your professional network Data Science and IoT
- Find the right job titles and companies
- Craft a data analytics/IoT resume and LinkedIn profile
- Ace the job interview
- Negotiate your salary

Program Calendar

1. Introduction to AI and IoT

Phase	Start Date	End Date	Mode
30 Days Basic Training	On day of registration	June 2, 2020	Online
15 Days Advanced Training and Internship	June 2, 2020	June 16, 2020	Online or In-campus at IIT Kanpur

2. Applied Machine Learning and Data Science

Phase	Start Date	End Date	Mode
30 Days Basic Training	On day of registration	June 16, 2020	Online
15 Days Advanced Training and Internship	June 19, 2020	July 3, 2020	Online or In-campus at IIT Kanpur

NOTE: For Online participants, the same training and internship program will be offered entirely online. During Phase 2 all sessions will be broadcast live on our training platform and will be available for later use as well.

PRICING

For Students

Program	Duration	Training Fee	GST(18%)	Total(INR)
Introduction to AI and IoT	45 Days (Phase1 + Phase2)	30,000	5,400	35,400
Applied Machine Learning and Data Science	45 Days (Phase1 + Phase2)	30,000	5,400	35,400

For Working professionals

Program	Duration	Training Fee	GST(18%)	Total(INR)
Introduction to AI and IoT	45 Days (Phase1 + Phase2)	45,000	8,100	53,100
Applied Machine Learning and Data Science	45 Days (Phase1 + Phase2)	45,000	8,100	53,100

Note:

1. The fee paid upon completion of registration is **non-refundable**.
2. **Residential Facility inside IIT campus:** For the **15-day In-Person (offline) bootcamp** at IIT Kanpur, accommodation (and food) facility is available inside IIT Kanpur. But we can only accommodate a fixed number of students. So this facility will be available on a **first-come-first-served** basis. (There is **no additional charge** for this accommodation and food facility.)

REGISTRATION AND PAYMENT

Last Date of Registration - Registrations are now closed
