AWS Certified Solutions Architect – Associate
(SAA-C02) Exam Guide

Introduction

The AWS Certified Solutions Architect – Associate (SAA-C02) exam is intended for individuals who perform as a solutions architect role. The exam validates a candidate's ability to design secure and robust solutions by using AWS technologies.

The exam also validates a candidate's ability to complete the following tasks:

- Design a solution by using appropriate AWS services and by following architectural principles based on requirements.
- Provide implementation guidance based on best practices to the organization throughout the workload lifecycle.
