

Getting Started

- Introduction to Node.js
- How to install Node.js
- How much JavaScript do you need to know to use Node.js?
- Differences between Node.js and the Browser
- The V8 JavaScript Engine
- An introduction to the npm package manager
- ECMAScript 2015 (ES6) and beyond
- Node.js, the difference between development and production
- Node.js with TypeScript
- Node.js with WebAssembly
- Debugging Node.js
- Profiling Node.js Applications
- Security Best Practices

Asynchronous Work

- Asynchronous flow control
- Overview of Blocking vs Non-Blocking

How much JavaScript do you need to know to use Node.js?

As a beginner, it's hard to get to a point where you are confident in your programming abilities. While learning to code, you might also be confused at where does JavaScript end, and where Node.js begins, and vice versa.

What is recommended to learn before diving deep into Node.js?

- Lexical Structure
- Expressions
- Data Types
- Classes
- Variables
- Functions
- **this** operator
- Arrow Functions
- Loops
- Scopes
- Arrays
- Template Literals
- Strict Mode
- ECMAScript 2015 (ES6) and beyond

With those concepts in mind, you are well on your road to becoming a proficient JavaScript developer, in both the browser and in Node.js.

Asynchronous Programming

The following concepts are also key to understand asynchronous programming, which is one of the fundamental parts of Node.js:

JavaScript
Asynchronous
Programming and
Callbacks

Discover JavaScript
Timers

The Node.js Event
Loop

The Node.js Event
Emitter

Understanding
process.nextTick()

Understanding
setImmediate()

Don't Block the
Event Loop

Manipulating Files

Node.js file stats

Node.js File Paths

Working with file
descriptors in
Node.js

Reading files with
Node.js

Writing files with
Node.js

Working with folders
in Node.js

How to work with
Different Filesystems

Command Line

Run Node.js scripts

- Asynchronous programming and callbacks
- Timers
- Promises
- Async and Await
- Closures
- The Event Loop
